Investments must include investments in subsidiaries, jointly controlled entities and associates. In respect of investments in subsidiaries, jointly controlled entities and associates, the following information must be disclosed as a minimum for each investment:

- i) name;
- ii) country of incorporation or residence;
- iii) type of business/operations of the entity;

- ii) the accounting policies and methods adopted, including the criteria for recognition and the basis of measurement applied.

g) *Provisions*

Provisions must be disclosed in separate classes. In determining which provisions may be aggregated to form a class, it is necessary to consider whether the nature of the items is sufficiently similar to be combined in a statement of a single amount.

For each class of provision, the carrying amount at the beginning and end of the period, the amount utilised and any amount released, or credited, in the period must be disclosed.

h) *Issued capital and reserves*

Share capital, other reserves and retained earnings must be disclosed separately.

iii) Retained earnings

The balance of retained earnings (i.e. accumulated profit or loss) at the beginning of the reporting period and at the balance sheet date, and the changes during the reporting period, must be disclosed.

i) *Controlling party*

When the reporting entity is controlled by another party, the related party relationship and the name of that party must be disclosed and, if different, that of the ultimate controlling party. This information must be disclosed irrespective of whether any transactions have taken place between the controlling parties and the reporting entity.

j) *Related party transactions*

If there have been transactions between related parties during the periods covered by the financial statements, the reporting entity must disclose the nature of the related party relationship, as well as information about these transactions and outstanding balances, including commitments, necessary for an understanding of the potential effect of the relationship on the financial statements. Items of a similar nature may be disclosed in aggregate except when separate disclosure is necessary for an understanding of the effects of related party transactions on the financial statements of the reporting entity.

As a minimum, disclosures must include for each related party:

- i) the amount and the nature of the transactions;
- ii) the amount of outstanding balances, including commitments, and:
 - their terms and conditions, including whether they are secured, and the nature of the consideration to be provided in settlement; and
 - details of any guarantees given or received;
- iii) provisions for doubtful debts related to the amount of outstanding balances; and

- iv) the expense recognised during the period in respect of bad or doubtful debts due from related parties.

The disclosures required must be made separately for each of the following categories:

- subsidiaries;
- associates;
- joint ventures in which the reporting entity is a venturer;
- key management personnel of the entity or its parent; and
- other related parties

Confirmation that related party transactions were made on terms equivalent to those that prevail in arm's length transactions must be made if such terms can be substantiated.

k) *Contingent liabilities*

Unless the possibility of any outflow in settlement is remote, the reporting entity must disclose for each class of contingent liability at the statutory closing date a brief description of the nature of the contingent liability and, where practicable:

- i) an estimate of its financial effect;
- ii) an indication of the uncertainties relating to the amount or timing of any outflow; and
- iii) the possibility of any reimbursement.

l) *Events after the balance sheet date*

Material non-adjusting events after the balance sheet date must be disclosed (the nature of the event and an estimate of its financial effect, or a statement that such an estimate cannot be made). Examples of such events are:

- i) fixed-term borrowing approaching maturity without realistic prospects of renewal or repayment;
- ii) substantial operating losses;
- iii) discovery of material fraud or errors that show the financial statements are incorrect;
- iv) management determining that it intends to liquidate the entity or to cease trading, or that it has no realistic alternative but to do so;
- v) player transactions where the amounts paid or received are significant;
- vi) transactions relating to property – for example, in relation to the club's stadium.

m) Other disclosures

i) Agents/intermediaries fees

The total amount paid in the reporting period to or for the benefit of agents/intermediaries must be disclosed.

ii) Players' economic rights (or similar)

For any player for whom the economic rights or similar are not fully owned by the licence applicant, the name of the player and the percentage of economic rights or similar held by the licence applicant at the beginning of the period (or on acquisition of the registration) and at the end of the period must be disclosed.

iii) Tax expense

The components of tax expense must be disclosed separately. That is, the aggregate amount included in the determination of net profit or loss for the reporting period in respect of current and/or deferred tax.

iv) Miscellaneous

Any additional information or disclosure that is not presented on the face of the balance sheet, profit and loss account or cash flow statement, but is relevant to an understanding of any of those statements and/or is required to meet the minimum financial information requirements, must be disclosed.

F – Player identification table

- 1 All licence applicants are obliged to capitalise costs relating to the acquisition of a player's registration and they must prepare and submit to the licensor a player identification table.
- 2 The player identification table must be provided to the auditor, who must reconcile the aggregate figures in the player identification table to the relevant figures in the balance sheet and profit and loss account in the audited annual financial statements. The player identification table must be submitted to the licensor as well.
- 3 The minimum information to be included in the player identification table in respect of each relevant player is as follows:
 - a) Name and date of birth;
 - b) Start date of original player contract and end date of current contract;
 - c) Costs of acquiring the player's registration;
 - d) Accumulated amortisation brought forward and as at the end of the period;
 - e) Expense/amortisation in the period;
 - f) Impairment cost in the period;

- g) Disposals (cost and accumulated amortisation);
 - h) Net book value (carrying amount);
 - i) Profit/(loss) from disposal of player's registration; and
 - j) Sell-on rights (or similar), i.e. description and (if possible) qualification of any sell-on rights to a football club that formerly held the player's registration, excluding training compensation and/or solidarity contributions.
- 4 The relevant players about whom details are required in the table are:
- a) all those players whose registration is held by the licence applicant at any time during the period and in respect of whom some direct acquisition cost has been incurred (at some point in time in the period or prior periods); and
 - b) all players in respect of whom some income/profit (or loss) has been recognised (at some point in time in the reporting period).
- 5 For licence applicants who have restated player accounting figures to meet the accounting requirements of these regulations, these aggregate figures from the player identification table must agree with/be reconciled to the restated figures in the supplementary information.

G – Financial review by management

- ¹ The annual financial statements must include a financial review or commentary by management (sometimes referred to as a directors' report) that describes and explains the main features of the reporting entity's financial performance and financial position and the principal risks and uncertainties it faces.
- ² The annual financial statements must also include the names of persons who were members of the executive body, or board of directors, and of the supervisory bodies of the reporting entity at any time during the year.

Annex VI. Basis for the preparation of financial statements

A – Principles

- ¹ Financial statements as defined in art. 48 must be based on IFRS or IFRS for Small and Medium-sized Entities – regardless of the legal structure of the licence applicant.
- ² Financial statements must be prepared on the assumption that the licence applicant is a going concern, meaning it will continue in operation for the foreseeable future. It is assumed that the licence applicant has neither the intention nor the necessity to go into liquidation, cease trading or seek protection from creditors pursuant to laws or regulations.
- ³ The financial reporting framework, suitable as a basis for the preparation of financial statements, must contain certain underlying principles including:
 - a) fair presentation;
 - b) consistency of presentation;
 - c) accrual basis for accounting;
 - d) separate presentation of each material class of items;
 - e) no offsetting of assets and liabilities or income and expenses.
- ⁴ Notwithstanding that each licence applicant has to prepare audited annual financial statements under its own national accounting practice for incorporated companies, the International Financial Reporting Standards or the International Financial Reporting Standard for Small and Medium-sized Entities, these regulations include specific accounting requirements to be complied with as set out in Annex VI, B to F.
- ⁵ The licence applicant must prepare supplementary information (to be submitted to the licensor) if the accounting requirements described in this annex are not met by the disclosures and accounting treatment in the audited annual financial statements. The supplementary information must include a restated balance sheet, profit and loss account and any associated notes to meet the requirements set out below. There must also be included a note (or notes) reconciling the results and financial position shown in the supplementary information document to those shown in the audited financial statements (that were prepared under the national accounting practice). The restated financial information must be assessed by the auditor by way of agreed-upon procedures

- ⁶ The financial statements must be approved by management and this must be evidenced by way of a brief statement and signature on behalf of the executive body of the reporting entity.

B – Consolidation/combination requirements

- ¹ The financial information of all entities included in the reporting perimeter (as defined in art. 47) must be either consolidated or combined as if they were a single company.
- ² Consolidated financial statements are the financial statements of a group in which the assets, liabilities, equity, income, expenses and cash flows of the parent and its subsidiaries are presented as those of a single company.
- ³ Combined financial statements are those that include information about two or more commonly controlled entities without information about the controlling entity.

C – Accounting requirements for the permanent transfer of the player's registration

- ¹ Licence applicants must capitalise the costs of acquiring a player's registration as an intangible asset. In this respect, the licence applicants must apply certain minimum accounting requirements as described in paragraph 2 of this part C.
- ² The minimum accounting requirements are described as follows:
- a) The acquisition of a player's registration must be recognised in the financial statements when all significant conditions for the transfer to take place have been satisfied, i.e. it is effectively unconditional, which means that there must be a legally binding agreement between the two clubs and between the acquiring club and the player.
- b) Only direct costs of acquiring a player's registration can be capitalised. For accounting purposes, the carrying value of an individual player must not be revalued upwards, even though management may believe market value is higher than carrying value. In addition, whilst it is acknowledged that a licence applicant may be able to generate some value from the use and/or transfer of locally trained players, for accounting purposes costs relating to an applicant's own youth sector must not be included in the balance sheet – as only the cost of players purchased is to be capitalised. All forms of consideration to and/or benefit of players (such as sign-on fees) must be treated as employee benefits expenses and not costs of acquiring a player's registration. Finance costs arising in respect of borrowings are treated as finance costs and are not costs of acquiring a player's registration even if the

borrowings were obtained to help finance the acquisition of player registrations.

- c) Amortisation must begin when the player's registration is acquired. Amortisation ceases when the asset is fully amortised or derecognised (i.e. the registration is considered as being permanently transferred to another club) whichever comes first.
- d) In respect of each individual player's registration, the depreciable amount must be allocated on a systematic basis over its useful life. This is achieved by the systematic allocation of the cost of the asset as an expense over the period of the player's contract. If the period of a player's contract with the club is extended, then the intangible asset carrying value of the player's registration plus any additional directly attributable contract negotiation costs (e.g. agent/intermediary fees) are to be amortised over the extended period of the player's contract or over the remaining period of the original contract.
- e) All capitalised player values must be reviewed each year by management for impairment. If the recoverable amount for an individual player is lower than the carrying amount on the balance sheet, the carrying amount must be adjusted to the recoverable amount and the adjustment charged to the profit and loss account as an impairment cost.

In exceptional circumstances when it becomes clear by the statutory closing date that:

- i. a player will not be able to play again with the club, for example if he suffers a career-threatening injury or he is permanently unable to play professional football, then the net book value of the player's registration on the balance sheet must be fully impaired in that reporting period. The following events do not represent a cause for recognising impairment loss:
 - A player suffers an injury in a reporting period and is temporarily unable to play professional football with the club, or
 - A player suffers a decline in fitness or ability and is not selected for participation in first-team matches.

In this regard, future wages of players suffering from a career-threatening injury or he is permanently unable to play professional football must continue to be recognised as employee benefits expenses throughout the duration of the player's contract.

- ii. the management of the club is committed to permanently transfer the registration of a player and the transfer occurs just after the statutory closing date, then the net book value of the player's registration on the balance sheet can be impaired if the disposal proceeds for the permanent transfer of the player's registration to

the new club is lower than his net book value. The accounting principle must be disclosed in the financial statements and must be applied consistently from one accounting period to another.

- f) The profit/(loss) on the disposal of a player's registration to another club to be recognised in the profit and loss account is the difference between the disposal proceeds (net of any sales costs) and the residual carrying value of the player's registration in the balance sheet as at the date of the transfer. The disposal of a player's registration must be recognised in the licence applicant's financial statements when all significant conditions for the transfer to take place have been satisfied, i.e. it is effectively unconditional and the risks and rewards have been transferred to the new club.

D – Accounting requirements for the temporary transfer of a player's registration

- ¹ The minimum accounting requirements for licence applicants that have transactions in respect of the temporary transfer of a player's registration (loan) are as follows:
 - ² Loan fees received/paid must be reported as player transfer income/expense.
 - ³ Loan of a player from the lender club to the new club with no obligation/option to buy
 - a) The loan fees received/receivable by the lender club, if any, must be recognised as income over the period of the loan arrangement. The lender club will continue to recognise the original costs of acquiring the player's registration as an intangible asset on its balance sheet and to allocate systematically the cost of the asset as an amortisation expense over the period of the player's contract.
 - b) The loan fees paid/payable by the new club, if any, must be recognised as an expense over the period of the loan arrangement. If the player's salary is taken over by the new club, it must be recognised as an employee benefits expense over the player's loan term.
 - ⁴ Loan of a player from the lender club to the new club with an unconditional obligation to buy
 - a) The loan must be reflected by the lender club as a permanent transfer and the player's registration rights must be derecognised from its intangible assets. The proceeds from the loan and from the future permanent transfer must be recognised from the inception of the loan agreement.
 - b) The direct costs of the loan and the future permanent transfer for the new club must be recognised by the new club in accordance with the accounting requirements for permanent acquisition of a player's registration.

- 5 Loan of a player from the lender club to the new club with an option to buy
 - a) The transaction must be recorded as a loan by the lender club until the option is exercised by the new club. When the option is exercised, any remaining proceeds of the loan and proceeds of the future permanent transfer must be recognised in accordance with the accounting requirements for the permanent disposal of player's registration.
 - b) When the option is exercised by the new club, any remaining costs of the loan and the costs of the future permanent transfer must be recognised by the new club in accordance with the accounting requirements for the permanent acquisition of a player's registration.
- 6 Loan of a player from the lender club to the new club with a conditional obligation to buy
 - a) If a condition is considered to be virtually certain, then the player's registration must be recognised by both clubs as a permanent transfer from the inception of the loan agreement.
 - b) If the fulfilment of a condition cannot be assessed with sufficient certainty to trigger the permanent transfer from the inception of the loan, then the player's registration must be recognised first as a loan and then as a permanent transfer once the condition is met.

E – Accounting requirements for specific expense items

- 1 Incentive/bonus expenses for employees
 - a) All forms of consideration given by an entity in exchange for service rendered by an employee, including any bonuses and incentives such as performance-related consideration, contract signing fees, and loyalty incentives, must be reported as employee benefits expenses.
 - b) Bonus and/or incentive payments that are payable in full by the club to a person with no further condition or service obligation (i.e. the club has no choice but to make the payments) must be recognised as employee benefits expenses when triggered.
 - c) Bonus and/or incentive payments that are dependent on a certain future condition being satisfied by the player and/or the club, such as a player's participation in matches and/or the club's competition performance, must be recognised as employee benefits expenses at the point in time when the condition has been satisfied or its fulfilment becomes highly probable.
 - d) Incentive and/or bonus to players when entering and/or extending an employment agreement with any condition or service obligation must be recognised on a systematic basis over the relevant period.
- 2 Termination benefits to employees

A club must recognise in full the expense of termination benefits to an employee when the club can no longer withdraw the offer of those benefits.

F – Accounting requirements for specific revenue items

1 Season tickets and similar revenues

Revenue in respect of season ticket sales or similar match-related sales must be recognised on a proportionate basis at the point in time when the relevant matches take place during the season.

2 Broadcasting and/or prize money revenues

a) Revenue in respect of broadcasting rights and/or other consideration for participation in a competition which are fixed considerations must be recognised on a proportionate basis at the point in time when the relevant matches take place during the season.

b) Revenue in respect of broadcasting rights and/or consideration for participation in a competition which are variable considerations dependent on certain conditions being satisfied by the club (such as competition performance bonuses) must be recognised at the point in time when the performance obligations are satisfied.

3 Sponsorship and commercial revenues

a) Revenue in respect of sponsorship rights which are fixed considerations must be recognised on a proportionate basis over the period covered by the sponsorship rights contract.

b) Revenue in respect of sponsorship rights which are variable considerations dependent on certain conditions being satisfied by the club (such as competition performance bonuses) must be recognised at the point in time when the performance obligations are satisfied.

c) Any non-cash consideration as part of a sponsorship contract must be measured at fair value.

4 Donations and grants

a) A donation is an unconditional gift of consideration that must be recognised as other operating income when received.

b) Grants must not be recognised in the accounts of the club until there is reasonable assurance that the club will comply with the conditions to receive the grant and the grant will be received. Then, a grant must be recognised in profit and loss on a systematic basis over the reporting periods in which the club recognises as expenses the related costs for which the grants were intended to compensate. Therefore, grants in respect of specific expenses are recognised in profit and loss in the same reporting period(s) as the relevant expenses. Similarly, grants related to depreciable assets are

recognised in profit and loss over the reporting periods and in the proportions in which depreciation expenses on those assets is recognised. A grant that becomes receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support with no future related costs must be recognised in profit or loss in the period in which it becomes receivable.

G – Financial information on youth development

- ¹ Licence applicants must extract data from the annual financial statements regarding the implementation of their youth development programme (see art. 16 above) and present to the licensor the financial information on youth development validated by the auditor.
- ² The financial information on youth development requested under par. 1 above must include at least the following expenditures:
 - a) Employee benefits / expenses for employees wholly involved in youth development activities;
 - b) Employee benefits / expenses for youth players (under the age 18);
 - c) Accommodation costs;
 - d) Medical costs;
 - e) Educational fees;
 - f) Travel;
 - g) Subsistence;
 - h) Kit, clothing and equipment;
 - i) Facility costs;
 - j) Participation fees;
 - k) Other costs directly attributable to youth development activities.

Annex VII. Notion of ‘overdue payables’

A – Principle

- ¹ Payables are considered as overdue if they are not paid according to the contractual or legal terms.
- ² Payables are not considered as overdue, within the meaning of these regulations, if the licence applicant (i.e. debtor club) is able to prove by 31 March (in respect of art. 49, 50, 50¹ and 53) that:
 - a) it has paid the relevant amount in full; or
 - b) it has concluded an agreement which has been accepted in writing by the creditor to extend the deadline for payment beyond the applicable deadline (note: the fact that a creditor may not have requested payment of an amount does not constitute an extension of the deadline); or
 - c) it has brought a legal claim which has been deemed admissible by the competent authority under national law or has opened proceedings with the national or international football authorities or relevant arbitration tribunal contesting liability in relation to the overdue payables; however, if the decision-making bodies of the licensor consider that such claim has been brought or such proceedings have been opened for the sole purpose of avoiding the applicable deadlines set out in these regulations (i.e. in order to buy time), the relevant amount will still be considered as an overdue payable; or
 - d) it has contested to the competent authority under national law, the national or international football authorities or the relevant arbitration tribunal, a claim which has been brought or proceedings which have been opened against it by a creditor in respect of overdue payables and is able to demonstrate to the reasonable satisfaction of the decision-making bodies of the licensor that it has established reasons for contesting the claim or proceedings which have been opened; however, if the decision-making bodies GFF consider the reasons for contesting the claim or proceedings which have been opened as manifestly unfounded the amount will still be considered as an overdue payable; or
 - e) it is able to demonstrate to the reasonable satisfaction of the relevant decision-making bodies (licensor and/or UEFA Club Financial Control Body) that it has taken all reasonable measures to identify and pay the creditor club(s) in respect of training compensation and solidarity contributions (as defined in the FIFA Regulations on the Status and Transfer of Players).

Annex VIII. Licensor's assessment procedures

A – Principle

- 1 The licensor defines the assessment procedures, ensuring equal treatment of all clubs applying for a licence. It assesses the documentation submitted by the clubs, considers whether this is appropriate and determines to its reasonable satisfaction whether each criterion has been met and what further information, if any, is needed for each licence to be granted.
- 2 The assessment processes to check compliance with the financial criteria set out in art. 9 comprise specific assessment steps that must be followed by the licensor as set out below.

B – Assessment of the auditor's report on the annual financial statements

- 1 In respect of the annual financial statements, the licensor must perform the following minimum assessment procedures:
 - a) Assess whether the reporting perimeter is appropriate for club licensing purposes.
 - b) Assess the submitted information (annual financial statements that may also include supplementary information) to form a basis for the licensing decision.
 - c) Read and consider the annual financial statements and the auditor's report thereon.
 - d) Address the consequences of any modifications to the auditor's report (compared to the normal form of unqualified report) and/or deficiencies compared to the minimum disclosure and accounting requirements according to par. 2 below.
- 2 Having assessed the reporting perimeter and read the auditor's report on the annual financial statements, the licensor must assess these according to the items below:
 - a) If the reporting perimeter does not meet the requirements of art. 47, the licence must be refused.
 - b) If the auditor's report has an unqualified opinion, without any modification, this provides a satisfactory basis for granting the UEFA Licence.
 - c) If the auditor's report has a disclaimer of opinion or an adverse opinion, the UEFA Licence must be refused, unless a subsequent audit opinion without disclaimer of opinion or an adverse opinion is provided (in relation to another

set of financial statements for the same financial year that meet the minimum requirements) and the licensor is satisfied with the subsequent audit opinion.

- d) If the auditor's report has, in respect of going concern, either a key audit matter or a qualified 'except for' opinion, the UEFA Licence must be refused, unless either:
 - i. a subsequent audit opinion without going concern key audit matters or qualification is provided, in relation to the same financial year; or
 - ii. additional documentary evidence demonstrating the licence applicant's ability to continue as a going concern until at least the end of the licence season has been provided to, and assessed by, the licensor to its satisfaction. The additional documentary evidence includes, but is not necessarily limited to, the information described in art. 52 (Future financial information).
 - e) If the auditor's report has, in respect of a matter other than going concern, either a key audit matter or a qualified 'except for' opinion, then the licensor must consider the implications of the modification for club licensing purposes. The UEFA Licence may be refused unless additional documentary evidence is provided and assessed to the satisfaction of the licensor. The additional evidence that may be requested by the licensor will be dependent on the reason for the modification to the audit report.
 - f) If the auditor's report makes a reference to any situation defined in art. 51 paragraph 2(d) the licence must be refused.
- ³ If the licence applicant provides supplementary information the licensor must additionally assess the auditor's report on the agreed-upon procedures in respect of the supplementary information. The UEFA Licence may be refused if this includes reference to errors and/or exceptions found.

C – Assessment of overdue payables towards other clubs, employees and tax authorities

- ¹ In respect of the overdue payables towards other clubs, employees and tax authorities, independent auditors must carry out the assessment procedures according to par. 2-4 below. The licensor must review the auditor's report and, in particular, verify that the sample selected by the auditor is satisfactory, and it may carry out any additional assessment it believes necessary, i.e. extend the sample and/or request additional documentary evidence from the licence applicant.
- ² With regard to overdue payables towards other clubs, the auditor must assess the information submitted by the licence applicant, in particular the transfers table and corresponding supporting documents, as detailed below and perform the following steps, as a minimum:

- a) Reconcile the total in the transfers table to the 'Accounts payable relating to player transfers' amount in the annual financial statements as at 31 December.
 - b) Check the arithmetical accuracy of the transfers table.
 - c) Select all or a sample of player transfers/loans, compare the corresponding agreements with the information contained in the transfers table and highlight the selected transfers/loans.
 - d) Select all or a sample of transfer payments, compare them with the information contained in the transfers table and highlight the selected payments.
 - e) If there is an amount due as at 31 March, that concerns a transfer that occurred before 31 December of the previous year, examine that, by 31 March at the latest:
 - i. an agreement has been reached as per Annex VII(2)(b); or
 - ii. a dispute/claim/proceeding has been brought as per Annex VII(2)(c) or (d); or
 - iii. All reasonable measures have been taken as per Annex VII(2)(e).
 - f) Examine all or a selection of bank statements in support of payments.
 - g) If applicable: examine documents, including agreements with the relevant football club(s) and/or correspondence with the competent body, in support of e(i), e(ii) and/or e(iii) above.
- 3 With regard to overdue payables in respect of employees, independent auditors must carry out the assessment procedures. The auditor must assess the information submitted by the licence applicant, in particular the employees table and other corresponding supporting documents as detailed below and perform the following steps, as a minimum:
- a) Obtain the employees table prepared by management.
 - b) Reconcile the total payable in the list of employees to the 'Accounts payable to employees' amount in the annual financial statements as at 31 December.
 - c) Obtain and inspect all or a randomly selected sample of employee confirmation letters and compare the information to that contained in the list of employees.
 - d) If, there is an amount due as at 31 March that refers to payables in respect of contractual or legal obligations in respect of its employees that arose before the previous 31 December, examine that, by 31 March at the latest:
 - i. an agreement has been reached as per Annex VII(2)(b); or
 - ii. a dispute/claim/proceedings has been brought as per Annex VII(2)(c) or has been contested as per Annex VII(2)(d).
 - e) Examine all or a selection of bank statements, in support of payments.

- f) If applicable: examine documents, including agreements with the relevant employee(s) and/or correspondence with the competent body, in support of the representations under d(i) and/or d(ii) above.
- 4 With regard to overdue payables towards social/tax authorities, the auditor must assess the information submitted by the licence applicant, in particular the social/tax table and other corresponding supporting documents, as detailed below:
- a) Obtain the social/tax table prepared by management.
 - b) Reconcile the total payable in the social/tax table to the 'Accounts payable to social/tax authorities' amount in the annual financial statements as at 31 December.
 - c) Obtain corresponding supporting documents.
 - d) If there is an amount due as at 31 March that refers to payables towards social/tax authorities as a result of contractual or legal obligations in respect of its employees that arose before the previous 31 December, examine that, by 31 March at the latest:
 - i. an agreement has been reached as per Annex VII(2)(b); or
 - ii. a dispute/claim/proceedings has been brought as per Annex VII(2)(c) or has been contested as per Annex VII(2)(d).
 - e) Examine all or a selection of bank statements in support of payments.
 - f) If applicable: examine documents, including agreements with the relevant social/tax authorities and/or correspondence with the competent body, in support of the representation under d(i) and/or d(ii) above.

D – Assessment of the written representation letter prior to the licensing decision

- ¹ In respect of the written representation letter, the licensor must read and consider the impact of any significant change that has occurred in relation to the club licensing criteria.
- ² The licensor must also read and consider the information in respect of any event or condition of major economic importance, in combination with the financial statements, future financial information and any additional documentary evidence provided by the licence applicant.
- ³ The licensor must assess the club's ability to continue as a going concern until at least the end of the licence season. The UEFA Licence must be refused if, based on the financial information that the licensor has assessed, in the licensor's judgement, the licence applicant may not be able to continue as a going concern until at least the end of the licence season.

- 4 If the licence applicant or any parent company of the licence applicant included in the reporting perimeter is/was seeking protection or has received/is still receiving protection from its creditors pursuant to laws or regulations within the 12 months preceding the licence season then the licence must be refused. For the avoidance of doubt the licence must also be refused even if the concerned entity is no longer receiving protection from its creditors at the moment the licensing decision is taken.
- 5 The licensor must check that the total amount paid in the latest reporting period to or for the benefit of agents/intermediaries and the last audited annual financial information assessed by the licensor have been made publicly available either on the licence applicant's website or the licensor's website.

E – Assessment of the future financial information

- 1 The assessment procedures, which must be carried out by an auditor, must include, as a minimum, the following:
 - a) check whether the future financial information is arithmetically accurate;
 - b) through discussion with management and review of the future financial information, determine whether the future financial information has been prepared using the disclosed assumptions and risks;
 - c) check that the opening balances contained within the future financial information are consistent with the balance sheet shown in the immediately preceding audited annual financial statements; and
 - d) check that the future financial information has been formally approved by the executive body of the licence applicant.
 - e) If applicable: examine corresponding supporting documents, including for example agreements with sponsors, banking facilities, share capital increase, bank guarantees and minutes of the board.
- 2 The auditor must assess the liquidity of the licence applicant (i.e. the availability of cash after taking account of financial commitments) and its ability to continue as a going concern until at least the end of the licence season. The licensor must review the auditor's report. He may carry out additional assessment it believes necessary and/or request additional documentary evidence from the licence applicant. The licensor also assesses the club's ability to continue as a going concern until at least the end of the licence season.
